

Radio motor for screens Roll up Altus 28 RTS external battery

Roll up Altus 28 RTS external battery motors are part of the ACT FOR GREEN® process, they received the eco-design expertise to reduce their environmental impact.

ELECTRICAL CONSUMPTION

This product is wirefree, requiring only the energy provided by the external battery. This battery must be charged.

DURABILITY

The lifetime has been increased up to 8 years minimum. Batteries are externally disposed to be easily repaired. Solar panels have a lifetime similar to motors, requiring no replacement.

RAW MATERIALS

This product has been tested by an external laboratory and is compliant with REACH and RoHS regulations.

PACKAGING

This packaging guarantees the use of 50% recycled fibers cardboard and 100% recycled fibers paper for instruction guide. Renewable materials are favored for wedges.
