Android

iOS

Benefits for professionals

Convenience

- Zigbee control via integrated control module
- Maintenance-free

Easy installation and programming with TaHoma® pro

- Installation and programming done directly from the app: intuitive step-by-step programming instructions
- Integrated button on the motor allows for leaving the network and full reset
- Dedicated maintenance tool, Serv-e-Go
- Acts as a Zigbee® mesh network router to extend radio range

Reliability and services

- Highly secure protocol
- Somfy quality & warranty

Open protocol

- Native compatibility with Zigbee 3.0 controllers (including Samsung Smartthings)

Benefits for end users

Daily comfort and convenience

- Quiet operation via "silent mode" function.
- Precision motion with soft start & soft stop
- Manage natural light and privacy via timed schedules and scenes
- Easy to use

Aesthetic integration

- Superior track design provides discreet look, adaptable to all types of room decor
- Unique cable management provides easy access to power outlets

Easy to use

- Easily control draperies with the TaHoma® app
- Get real time feedback on drapery positioning status via a smartphone or tablet

- Built-in manual override enables use of drapery without power
- Special touch-motion control eliminates damage to drapery fabric

Go hands free with voice control

- Compatible with voice control assistants (with TaHoma® switch and Amazon Alexa, Google Home, or Apple HomeKit)

Safety and reliability

- Somfy quality and warranty
