

WHY MOTORIZED?

-  Reduce energy costs
-  Instantly create privacy
-  Conveniently manage glare
-  Automatically protect valuable furnishings from harmful UV rays
-  Easily adjust hard-to-reach window coverings
-  Fewer cords make homes safer for little ones
-  Use natural voice commands to operate your screens

Radio Technology Somfy®

RTS allows you to experience motorization your way. Control your motorized exterior screen or solar shade with a single device or a combination. Choose from hand-held remotes, wireless wall switches, table top controls, timers, app and voice control. You can also:

- Add a state-of-the-art wind or sun sensor to provide automatic control based on weather conditions.
- Control an incandescent or halogen lamp using the same remote control with the Outdoor RTS Lighting Receiver.
- Add TaHoma, pair it with your Amazon Alexa and just ask: "Alexa, lower the screens."

About Somfy®

Somfy has been improving everyday life for more than 270 million people by designing and manufacturing intelligent motorization solutions for interior window coverings and exterior solar protections. Somfy innovates to automate and connect shades, blinds, draperies, awnings, rolling shutters, exterior screens & pergolas for commercial and residential buildings in 58 countries across the globe. With 170+ million motors produced over the last half century, Somfy is committed to creating reliable and sustainable solutions that promote the best way of living and well-being for all.

Comfortable Living

with Motorized Exterior Screens
and Solar Shade Systems

IMAGES © Somfy/SASA/Alex Stafford

Fresh air in, bugs out. Preserve your view... or create instant privacy.

Motorized exterior screens and solar shades absorb heat, reduce glare and let you enjoy the outdoors comfortably. Combined with state-of-the-art Radio Technology Somfy® (RTS) controls, screens move with ease - at the touch of a button. Blocking solar rays not only protects your home furnishings, it also saves money on your heating and cooling costs. Obstacle detection available for zip screens - protects the fabric as well as patio furniture, providing peace of mind.

CONVENIENCE

Telis RTS hand-held remotes offer convenient and simple operation of motorized exterior screens and solar shades. Single channel remotes can operate one individual product or one group of motorized products. Available in 1, 5 or 16 channels.

Somfy TaHoma®

Control your screens or shades while home or away using your tablet, smartphone or natural voice commands.

Create timed events, scenes and schedules using an app.

For detailed information, including voice control, please visit somfysystems.com/tahoma

RTS Automatic Sensors

Strong winds and rain can cause damage. Automating the operation of your screens based on the weather not only protects your investment but also maximizes the efficiency by effortlessly managing heat gain/loss. **Eolis RTS Wind Sensor** retracts the screen when wind is detected.

Solar powered **Ondeis® WireFree RTS Rain & Sun Sensor** or the battery powered **Sunis Outdoor WireFree™ RTS Sun Sensor** automate your screens based on the amount of sunlight or rainfall.
