

Wired motor for blind and rolling shutters OREA 60 WT

The LT60 PA and the LT60 RA are part of the ACT FOR GREEN process, they received the eco-design expertise to reduce their environmental impact.

ELECTRICAL CONSUMPTION

This product has no standby consumption due to his mechanical cage. This technology reduces considerably the life cycle analysis impacts.

DURABILITY

This product has been designed to facilitate dismountability and repairability in factory.

RAW MATERIALS

This product has been tested by some external laboratory and is compliant with REACH and RoHS regulations.

PACKAGING

This packaging guarantees the use of 50% recycled fibers cardboard and 100% recycled fibers instruction guide. Wedge in the packaging can not be made from fossil material.

94.3 kg CO₂ eq.
